THE 50s DECADE · VISIA TRUSKIN AGE PLAN

Your Concerns, *Honestly Answered.*

In your 50s, you don't need to be told what's changing — you can see it. What you need is someone willing to name it plainly and show you exactly what addresses each thing, and why.

★★★★★ **460+ FIVE-STAR GOOGLE REVIEWS** ★★★★★

30+ YEARS in Women's Health & Aesthetics · Patients from **16+ STATES** · **On-Site Physician/Founder**
Redefining healthCARE

CONCERNS YOU FEEL

"*My skin tells the story of every summer I soaked in the sun.*"
SUN DAMAGE · BROWN / AGE SPOTS · UNEVEN TONE

"*My face has settled. I see shadows and heaviness.*"
LAXITY · COLLAGEN DEFINITION & LOSS

"*The lines I made with expressions are now visible all the time.*"
WRINKLES · ETCHED-IN LINES

"*Someone asked if I was tired on my best-rested morning.*"
VOLUME LOSS · HOLLOWING · FLATNESS

"*Something's not the same "down there," but no one really talks about it or offers REAL solutions.*"
PELVIC FLOOR · INCONTINENCE · INTIMATE WELLNESS

"*My skin used to glow. Now it is DULL.*"
TEXTURE CHANGES · PORE CONGESTION · UNEVENNESS

"*My hair is thinning and my scalp shows through.*"
HAIR THINNING · SCALP HEALTH

"*I keep buying skin products and nothing seems to work.*"
DAILY HOME CARE · RESULT MAINTENANCE · STRUCTURED PLAN

"*I want to know if this is working.*"
PROOF · MEASUREMENT · ACCOUNTABILITY

TREATMENTS TO OPTIMIZE CHANGES

Lumecca *IPL + Vasculaze*

The most powerful IPL available targets the brown spots, broken capillaries, and UV damage your mirror can't show you. Sessions designed to address decades of accumulated sun exposure.

Morpheus8 *RFMN · #1 in CO / #5 in U.S.*

By age 50, we have lost 50% of our collagen. Microneedling alone stimulates your cells to repair and heal. Morpheus8 adds radiofrequency energy at multiple depths for a synergistic effect that cannot be duplicated any other way. This RFMN combination triggers a collagen and elastin cascade designed to make skin structurally tighter with a healthier glow over time.

Botox */ Dysport*

Wrinkle relaxers every 3–4 months soften the expressions etched into your skin and help slow the formation of new ones. Look and feel refreshed, natural, and rested — also a preventative wrinkle treatment. Often used on the forehead, the 11s between brows, and crow's feet. Masseters, TMJ, neck lines, and more are also fair game.

Sculptra *Biostimulator*

Not a filler — a collagen stimulator. Your body can be stimulated in multiple ways to produce its own collagen over 3–6 months. Sculptra is one of our amazing options we pair with Morpheus8 and other treatments to maximize progress — think of it as laying down the framework that your body builds on.

Perky Peach® *· EmpowerRF · #1 in U.S. every year · National Trainer & Key Opinion Leader*

No pain, no downtime — a 20-minute treatment that can save you from surgery. Radiofrequency designed to support pelvic floor tone, address stress and other urinary incontinence, and improve sensation. Many patients describe this as the most meaningful treatment in the entire plan.

Chemical Peels *+ Forma Facials*

Have you ever started a skincare routine and felt like you wasted money because nothing changes? Peels remove and slough off the top dead layers to give us access to new cells that crave quality products to protect, heal, hydrate, and moisturize. By resurfacing, skin is primed for skincare and deeper treatments with less work to penetrate. Forma RF also supports collagen production from the surface with zero downtime — a relaxing "hot-stone-massage celebrity-glow" pampering.

Head Spa *+ Hair Play · new services*

Scalp circulation, stimulation, debris removal, and follicle health — the most overlooked component of full aesthetic restoration. A healthy scalp and hair is often part of a woman's identity, and treatment that feels like pampering is always a favorite. Pair with genetic testing to understand your personal needs for best success — no guessing for a year or more whether the treatment you chose is the best option for you. *Genetic testing available as an add-on.

Prescriptive *Skincare*

You don't go to the dentist every 6 months and ignore brushing in between. Home care IS an imperative part of how we improve, maintain, and protect results. Alastin and SkinCeuticals — the two most evidence-backed clinical lines — are replenished up to every 4 months. What we build in the office is maintained and maximized with daily topical care you can see working.

VISIA *+ Vectra Imaging*

Ever wonder if recommendations are just someone's opinion? With advanced, state-of-the-art technology we measure your skin against thousands of women your age and provide data, percentiles, and counts to establish an accurate, unbiased baseline and results tracking. Eight clinical parameters assessed at Months 1, 6, 12, and 18. We don't guess what your skin needs — VISIA tells us, and we build your plan around the data. *Please come without makeup or skincare for your photos; even moisturizers can affect your baseline.

VISIA TruSkin Age Plan

50–59 Refined

RESTORE · RECLAIM · REFRESH

YOUR PERSONALIZED MONTH-BY-MONTH PROTOCOL

Every visit is mapped in advance. You'll always know what's coming next. Dr. Knies and the team will adjust your plan based on how your skin responds at each VISIA checkpoint.

Your initial visit includes comprehensive labs, a physical exam, and baseline VISIA +/- Vectra imaging. Skincare bundles are refreshed up to every 4 months so you never run out of the products your skin needs.

YOUR 18-MONTH TRUSKIN AGE 50–59 "REFINED" PLAN
